

PRIME COLLECTION

Prime High Gloss is designed to deliver lasting quality and visual precision. This High Gloss lacquered surface combines refined aesthetics with solid mechanical performance, offering depth, brightness and a smooth, consistent finish. Developed for everyday environments, Prime provides resistance to scratches, impacts and wear, maintaining its visual integrity and surface quality over time.

Version 1 • 2026

ULTRAMATT COLLECTION

UltraMatt 5N is engineered for high-performance surfaces. Developed with 5 Newtons scratch resistance, this supermatt lacquering technology combines durability, surface stability, and a refined appearance. Designed for intensive daily use, UltraMatt offers anti-fingerprint properties, easy cleaning, and long-term surface durability, ensuring consistent quality and performance over time.
